Purchasing Photos

How do I purchase all the photos from (a game) that I appear in? And how much will it cost?

d3photo note: We updated this process in September 2026 to make it faster and more self-service. Please read the complete process below before submitting a request.

It is possible to purchase all eligible images that you or your student-athlete appear in from d3photography.com at a discounted per-game rate. The request must be for one student-athlete only, and that student-athlete must appear in every selected photograph.
This offer may not be bundled with coupons, discounts, or deal prices. Pricing may change; the Student-Athlete Image Access form always displays the current price before you submit a request.

To begin, create a PhotoShelter lightbox containing the images you want and submit its shared link through the Student-Athlete Image Access form. You may include lightboxes from more than one game in the same request. Each game is priced separately, and the form lets you review or remove individual games before creating an invoice.

Are you an official, referee, or umpire at a game we covered?

Contact us directly for more options than what is listed here. There are many options available to you as well.

Note:
These images do not come with reproduction rights, permissions, or distribution. These sales are not transfers of ownership. d3photography.com retains full creative and licensing over the images. Licensing for reproduction, distribution, or any other use over the images must be processed on an image-by-image basis via email to **licensing@d3photography.com**

For NCAA postseason events, D3hoops.com Classic, and other Sport Tours International events

$150 for all small JPEG images of a single student-athlete (1500px long edge)
$190 for all medium JPEG images (2500px long edge)
$275 for all large JPEG images (3000px long edge)
$350 for all full-size/original images

For regular-season events

$100 for all small JPEG images of a single student-athlete (1500px long edge)
$150 for all medium JPEG images (2500px long edge)
$175 for all large JPEG images (3000px long edge)
$200 for all full-size/original images

Multiple-game savings

When one request includes more than one selected game, the Student-Athlete Image Access form automatically applies a multiple-game discount:

- For 2–3 games, each game after the first receives a 10% discount.
- For 4 or more games, each game after the first receives a 20% discount.

The discounted total is shown before you create the invoice.

Purchasing Photos

Process to receive these images:

1. Create a lightbox in PhotoShelter and add every image you want included. Use the green Share button to copy the lightbox link. You may submit more than one lightbox when ordering images from multiple games.
2. Open the Student-Athlete Image Access form and paste the lightbox link or ID. Review each game, deselect any game you do not want, and select the desired download size.
3. Enter the purchaser’s name and email address, the student-athlete’s school and name, and the jersey number if available. You may add up to two additional email addresses for gallery access.
4. Confirm that the request is for one student-athlete only and that the student-athlete appears in every selected image. Submit the request to create the invoice and prepare the private gallery.
5. We will prepare a private, view-only PhotoShelter gallery and send an invoice with an online payment link. Pay online by PayPal, credit card, or Venmo; a 3% electronic-payment service fee is added to those payments. You may instead pay by Zelle or check by mail without that electronic-payment fee.
6. Minnesota sales tax is calculated from your network location. Electronic-payment fees are taxable when Minnesota sales tax applies.
7. After payment is received and confirmed, we activate download access for the selected size and make the private gallery watermark-free. PhotoShelter will notify the access email addresses. Future private galleries can be found through your PhotoShelter invitations.

Please feel free to contact sales@d3photography.com with any questions about this process.
