

Purchasing Photos

How do I purchase an entire event's gallery?

For team sports you may be able to purchase all the images from an event in bulk.

Prices vary from photographer to photographer but they start at \$200 for small size (1500px) images. For most events this is less than \$1 per image. However these images will have a single d3photo watermark in the center of the image. An example is available below.

Not all photographers or events are available as part of this program. For more information you will need to contact sales@d3photography.com with the date, teams participating in your event, and the sport to receive a quote.

All sales are final.

Watermark-free versions are available as well and quotes for those galleries are made on a case-by-case basis. Details on that [can be found here](#).

[Click here to view the file at 1500px with the watermark.](#)
